### **Relativity ‘Best in Service’ Distinction Attained by TechLaw Solutions**

Press Release – Washington DC – July 26, 2011 – TechLaw Solutions has earned the select status of being named a Relativity Best in Service partner, a designation achieved following an extensive evaluation by kCura. This included a rigorous examination of TechLaw Solutions’ technical environment to verify the highest levels of performance and responsiveness; assessment of staff knowledge to substantiate depth of understanding on the software; and positive client references, all to confirm an optimal user experience.

“This is a significant achievement on behalf of our clients,” stated Mel Goldenberg, President of TechLaw Solutions. “Throughout our nearly 30 year history, we have always taken that extra step to ensure the services and software we provide are available at the highest levels possible. This includes exhaustive staff training and meticulous attention to details of the discovery workflow process, all to drive the most successful client outcomes we can help deliver.”

TechLaw Solutions offers Relativity to its clients in a SaaS-based model, housed in a state-of-the-art Tier 3 Data Center, for hosted review and analysis of electronic documents. Extending the review process in Relativity with capabilities like email threading, near-duplicate detection, and concept clustering further enables clients to exert greater control over the increasing volumes of case-related data. Review services and strategic assistance are delivered by a Project Management team with an average of over 12 years of service, offering comprehensive levels of perspective and creative solutions to the ever-growing list of e-Discovery challenges.

“We’re pleased to recognize TechLaw Solutions for their outstanding Relativity offering,” said Andrew Sieja, president and CEO of kCura. “As a Relativity Premium Hosting Partner, Certified Reseller, and now Best in Service partner, TechLaw has exhibited an impressive commitment to the service and support of the software.”

TechLaw Solutions further partners with kCura to offer Method, a SaaS-based application to automate the management of legal holds. This enables clients to effectively address the potential business risk through litigation preparedness efforts, helping to stay in compliance and avoid sanctions. TechLaw Solutions is also a Certified Reseller for Relativity and Method.
